PARC Medical Billing Service has newly expanded fax capabilities to provide your practice with increased communication abilities.

We have added a second fax number to help the heavy traffic volume peaks throughout the month.

In addition to our primary fax number of **(516) 795-6894**, we now offer a secondary fax number of **(516) 804-9070**.

Both fax numbers are available 24/7.

We hope you take advantage of our newly expanded fax capabilities. Look for additional technology upgrades and network enhancements in the coming months.
